

“Stand on the shoulders of giants.”

Summary

Computer science engineer specialized in the field of computation at the Universitat Politècnica de Catalunya. With a passion for Vim, Emacs, and Linux, I enjoy experimenting with various programming languages and building custom computer systems. I am particularly interested in Artificial Intelligence and am always eager to learn about new advancements in the field. As a highly motivated individual, I am committed to staying up-to-date with the latest technologies and am always seeking new challenges and opportunities for growth.

Education

UPC at Facultat d'enginyeria informàtica de Barcelona (FIB)

COMPUTER SCIENCE AND ENGINEERING DEGREE

Barcelona, Espanya

Mar. 2019 - 2023

Cambridge

ENGLISH CERTIFICATE AT C1

Barcelona, Espanya

June. 2019

Skills

Programming Languages	C, C++, Java, Python, Assembly (x86, MIPS), SQL, MySQL, Prolog, Haskell, CLIPS, PDDL, Powershell
Data Analysis	Statistics, Data Mining, Machine Learning, Supervised Learning, Probability, Big Data
Artificial Intelligence	Computer vision, Search Algorithms, Knowledge-Based Systems
Computation	Algorithms, Algorithms analysis, Dynamic Programming, Theory of computation, Mathematical logic
Version Control	Git, Github, Gitlab
Tools and IDEs	JetBrains, VScode, Vim, doxygen, Jupyter notebook, Google colab
Network Management	Cybersecurity, Network Administration, Cisco Routing
Web Development	HTML5, JavaScript, User Interface Design
Operating Systems	Windows, Linux, Mac
Other	OpenGL, PIC Microchip, Software Architecture, Parallel Processing, Business Economics
Languages	English (fluent), Spanish (native), Catalan (native)

Experience

Intern · MGS, Seguros y Reaseguros S.A.

DATA ANALYST

Barcelona, Catalonia, Spain

Sept 2023 - Present

- Data collection, cleaning, and analysis from diverse sources.
- Collaborating with teams to understand business needs.
- Staying updated on industry trends and best practices.

Freelance · Superprof

PRIVATE TUTOR

Barcelona, Catalonia, Spain

Mar 2023 - Present

- I'm proud to hold the prestigious title of "Super Professor" on Superprof, reflecting my dedication to delivering exceptional educational experiences. My freelance journey as a Computer Scientist has been a continuous learning experience. My experiences have included collaborating with a wide range of individuals, from fellow engineers and business professionals seeking tech solutions to beginners in programming and mathematics. This diverse exposure has enriched my adaptability, problem-solving abilities, and mentorship skills.

Extracurricular Activity

Winner of bitsxlaMarató TV3 Hackathon 2022

SOFTWARE DEVELOPMENT ENGINEER

Jan 2022

Barcelona, Spain

- Developed an aneurysm detector based on a convolutional neural network using MaskRCNN for cardiovascular health.
- Won the bitsxlaMarató TV3 Hackathon 2022 for this project.
- Designed and implemented a user-friendly interface for uploading any video and detecting the aorta, as well as visualizing the 3D model.

Automation and documentation of Linux configs

OPEN SOURCE COMMUNITY CONTRIBUTOR

Barcelona, Espanya

Jun. 2017 - Present

- Got proficient at shell scripting and automation of multiple tasks through tools like Stow or Rclone
- Learned how to document solutions to problems encountered through, markdown/latex
- Source-control systems like Git became indispensable for my workflow, as tasks began to scale
